

	Main stage 24 October 2018	Green stage 24 October 2018	100 Innovations Showcase 24 October 2018	RED stage (Hall A) 24 October 2018
10:00	<p>10:00 Official opening of "Security of the Future" forum will take place on the Main stage in a format of a light-sound show and speech presentations of security industry leaders.</p> <p>Moderators: Natalina Litvinova, President of the World fund of development resources "Birth of the World", Founder of the International Peacekeeping Assembly, President of the International Committee of Digital Economy.</p> <p>Public figure: Anton Zorkin, Russian public figure, TV host of the central TV channels</p>			
	<p>10:30 Forum of Non-Governmental Security Structures (NSS) "Safe Capital" Plenary session "Safe city - Smart city"</p> <p>Responsible departments of the capital and other cities of Russia will talk about requirements and suggestions to city safety creation and security maintenance of its inhabitants. Leading producers of vertical solutions for smart cities will share technology ideas to meet new challenges and will talk about trends and technologies of the present and the future.</p>	<p>10:30 Video surveillance</p> <p>Leading experts will talk about the way modern video surveillance technologies help to increase enterprises' security level and reduce risks. The ways of its' better integration and effective usage will be defined. The most perspective developments will be emphasized. Proper analysis of the drawbacks of current solutions will be carried out.</p>	<p>10:30 Presentation of new technical solutions</p> <p>Participants of "National security" contest will present projects in the following nominations: Access Control Systems (ACS), Equipment, Drones, Security and Fire Alarm Systems, Means of security provision.</p> <p>10:30-11:00 Nomination: Access Control Systems (ACS)</p> <p>Presentations of innovative developments of enterprises on open stage in front of the committee members of "National security" contest, determination of winners, also by including open voting of visitors of the forum.</p>	<p>10:30 Conference: "Prospects of Creation of Samples of Arms and Special Equipment of New Generation"</p> <p>Organizer: Ministry of Internal Affairs of the Russian Federation</p> <p>10:30-11:30 Workshop: Special vehicles</p> <p>Issues in discussion: "Directions and prospects of improvement of special motor transport used by law-enforcement bodies"</p>
11:00			<p>11:00-12:00 Nomination: Equipment</p> <p>Presentations of innovative developments of enterprises on open stage in front of the committee members of "National security" contest, determination of winners, also by including open voting of visitors of the forum.</p>	<p>11:30-13:00 Workshop: Equipment</p> <p>Issues in discussion: Set of equipment of field servant of patrol and inspection service</p>
		<p>11:45 Antiterror: security of facilities and infrastructure</p> <p>Experts representing public authorities and business circles will talk about techniques and practice of critical infrastructure protection in the context of high developing technologies and information wars. The ways of cost-effective and flawless work maintenance with simultaneous application and development of digital and other innovations in financial, power and manufacturing industry fields will be discussed.</p>		
12:00	<p>12:00 "Smart" and "Safe" city conflict</p> <p>Experts, futurologists and hi-tech producers will debate on the issue of balance maintenance between city with the highest IQ rate and its' security provision. Is it possible to reach a state when technologies and technological solutions' rates become too much?</p>	<p>12:30 Perimeter protection - one of the key aspects of object protection</p> <p>Experts will talk about the process of traditional industry transformation in digital era, will discuss trends and balance maintenance between new and old approaches for ensuring maximum enterprise security level.</p>	<p>12:00-13:00 Press conference "Parameters of the future"</p> <p>Presentation of a social experiment "Parameters of the future: public measurement"</p> <p>12:30-13:00 Nomination: Drones</p> <p>Presentations of innovative developments of enterprises on open stage in front of the committee members of "National security" contest, determination of winners, also by including open voting of visitors of the forum.</p>	
13:00	<p>13:00 Cyber security</p> <p>Leading experts of information security industry will talk about the current state of the market, will set the course of its' transformation and will discuss the main novelties.</p>	<p>13:30 Biometrics of the future</p> <p>Leading Russian developers of biometric technologies and platforms will talk about the key directions of industry development, will discuss the opportunities of application and reliability of existing solutions. Successful cases of implementation and use of technology on specially protected sites and on commercial enterprises.</p>	<p>13:00-14:00 Nomination: Security and Fire Alarm Systems</p> <p>Presentations of innovative developments of enterprises on open stage in front of the committee members of "National security" contest, determination of winners, also by including open voting of visitors of the forum.</p>	<p>13:00 Workshop: Special means</p> <p>Issues in discussion: Technical means of search, examination and observation; issues of creation of new types of special means</p>
14:00		<p>14:40 Access Control Systems (ACS)</p> <p>Experts and developers will talk about current state of the market and define the best existing solutions of today. The prospects of development and future opportunities of ACS industry will be also discussed.</p>	<p>14:00-15:00 Nomination: Means of security provision</p> <p>Presentations of innovative developments of enterprises on open stage in front of the committee members of "National security" contest, determination of winners, also by including open voting of visitors of the forum.</p>	<p>14:00 Forum of Non-Governmental Security Structures (NSS) "Safe Capital"</p> <p>Workshop: Social infrastructure. Ensuring protection and safety of objects, places of mass visit of citizens</p>

	Main stage	Green stage	100 Innovations Showcase	RED stage (Hall A)
15:00	<p>15.00 Export potential of security industry</p> <p>Key opinion leaders and leading manufacturers of security systems will talk about strategies for entering foreign markets, even in "under sanctions" condition.</p>	<p>15.30 Biometrics of the future - clash of opinions</p> <p>Round table discussion of industry experts. Battle-session "Biometrics - who is right?" with participation of two experts-opponents</p>	<p>15.00 Seminars of security industry companies</p> <p>Discussion: Video surveillance - design of security systems</p> <p>Cases on installation and service maintenance of security systems</p>	<p>15.00 Forum of Non-Governmental Security Structures (NSS) "Safe Capital"</p> <p>Workshop: Development of industry of technical means of security.</p>
16:00	<p>16.30 Artificial Intelligence in Security Systems</p> <p>Experts in the field of artificial intelligence will talk about the role and possibilities of today's neuronets and machine learning technology for security systems and human factor risks reduction.</p>	<p>16.30 Blockchain and security</p> <p>Leading developers of data protection systems will talk about new products for blockchain based solutions and cryptoassets. The possibility of establishment of security system based on blockchain technology will be discussed.</p>	<p>16.00 Practical courses (trainings)</p> <ul style="list-style-type: none"> • business strategy creation • marketing and sales • electronic commerce • new product development • team interaction • business simulation <p>16.30 Presentation of ready technical solutions</p> <p>Presentation of products and full information about it, including cost, features of installation and service.</p>	<p>16.00 Forum of Non-Governmental Security Structures (NSS) "Safe Capital"</p> <p>Workshop: Fire safety. Concept of development of industry, participation of citizens, society, business and state</p>
17:00		<p>17.00 Employee pool of security industry</p> <p>Representatives of higher educational institutes and leading companies of security field will discuss the problems of employee pool, existing specialists' training issues and educational programs. The tasks of specialists' training for the next few years will be also set.</p>	<p>17.00 Video surveillance: security systems design</p> <p>Leading experts will talk about the current state of security systems, new vulnerabilities and tactics of violators. The ways of creation of the most reliable and easily adaptive system in conditions of unprecedented growth of new technologies and equipment based on it.</p>	<p>17.00 Media council of NSS of Russia</p> <p>Issues in discussion: Purposes and tasks of formation of effective information space of community of law-enforcement, human rights, voluntary, patriotic associations and non-governmental security field</p>
18:00	25 October 2018			
10:00	<p>10.00 Global security technologies</p> <p>Leading world public figures and futurologists will present their concepts of development of global security technologies.</p>	<p>10.00 Collaborative robotics — security of the future in industrial production</p> <p>Collaborative robotics is one of modern trends of development of industrial and service robotics. A robot has to be able to work in close contact with a person and obtain program and hardware components which will secure the person in case of emergency situations, for example when a person enters the movement area of a robot. This and more will be discussed in collaborative robotics section.</p>	<p>10.00 Presentation of new technical solutions</p> <p>Participants of "National security" contest will present projects on the following nominations: Video surveillance, Perimeter Protection, Biometrics, Antiterror, Cyber security</p> <p>10.00-11.00 Nomination: Antiterror</p> <p>Presentations of innovative developments of enterprises on open stage in front of the committee members of "National security" contest, determination of winners, also by including open voting of visitors of the forum.</p>	<p>10:00 Scientific and practical conference</p> <p>Technical and criminalistic ensuring of disclosure and investigation of crimes</p>
11:00	<p>11.00 Digital economy - the market of innovations of the future</p> <p>Digital economy is the main strategy of development of Russia for the next years. Technological breakthrough, new reserves creation and competitiveness in the world market are the key objectives of the state. Regulators and state corporations will talk about the main directions and trends of development and also discuss the role and importance of security field in overcoming the challenges of hi-tech and rapidly developing world</p>	<p>11.00 Drones</p> <p>Experts and best domestic developers will talk about possibilities of application of drones for protection and attack missions and operations in hard-to-reach and dangerous areas. Prospects and trends of industry development in the near future will be also discussed.</p>	<p>11.00-12.00 Nomination: Cyber security</p> <p>Presentations of innovative developments of enterprises on open stage in front of the committee members of "National security" contest, determination of winners, also by including open voting of visitors of the forum.</p>	
12:00	<p>12.00 Safety of retail</p> <p>Cases from heads of security services of the biggest retail networks: security systems for economic indicators increase of the company and reduction of reputational risks</p>	<p>12.00 Equipment</p> <p>Heads of large production companies, small business, distributors, dealers of equipment and outdoor staff will talk about the latest achievements and developments of the industry. The issue of new materials application will be also discussed.</p>	<p>12.00-13.00 Nomination: Perimeter Protection</p> <p>Presentations of innovative developments of enterprises on open stage in front of the committee members of "National security" contest, determination of winners, also by including open voting of visitors of the forum.</p>	<p>12.00 Scientific and practical conference</p> <p>Technical means of protection for ensuring complex safety of objects and territories of the state: problems and prospects of development.</p>
13:00	<p>13.00 Integration of security systems</p> <p>Experts will present the results of audit of requirements and hardships of security systems customers. Technically challenging products: the rate of necessity for all and proper assembly.</p>	<p>13.00 Intellectual property</p> <p>Leading experts in the legal industry, representatives of the state and the largest developers will discuss the perspectives of intellectual property protection in Russia and will share practical cases and proposals for improvement and protection of working conditions of developers</p>	<p>13.00-14.00 Nomination: Video surveillance</p> <p>Presentations of innovative developments of enterprises on open stage in front of the committee members of "National security" contest, determination of winners, also by including open voting of visitors of the forum.</p>	

	Main stage	Green stage	100 Innovations Showcase	RED stage (Hall A)
14:00	<p>14.00 Communication of the future: man and technologies</p> <p>Communications: ways and methods. Authoritative speakers will talk about new technologies influencing the development of media market and communication providers: Internet, telephony, mobility and VR-technologies of tomorrow.</p>	<p>14.00 Video surveillance</p> <p>Leading experts will talk about the way modern video surveillance technologies help to increase enterprises' security level and reduce risks. The ways of its' better integration and effective usage will be defined. The most perspective developments will be emphasized. Proper analysis of the drawbacks of current solutions will be carried out.</p>	<p>14.00-15.00 Nomination: Biometrics</p> <p>Presentations of innovative developments of enterprises on open stage in front of the committee members of "National security" contest, determination of winners, also by including open voting of visitors of the forum.</p>	<p>14.00 Scientific and practical conference</p> <p>Priority directions of technical fit-out of national borders at the present stage. Conference.</p>
15:00		<p>15:00 PR of the future - Media Summit with participation of mass media representatives.</p> <p>Experts of security industry will talk about the ways of better promotion of new technologies, products and services on the modern market with the help of advanced technologies and instruments. The ways of proper explanation of products' work, its' effectiveness and importance to potential customer will be also discussed.</p>	<p>15.00 Seminars of security industry companies</p> <p>Discussion: Recognition of numbers in video surveillance systems (licence plate numbers of cars)</p> <p>Discussion: Face recognition in video surveillance systems</p> <p>16.30 Presentation of ready technical solutions</p> <p>Presentation of products and full information about it, including cost, features of installation and service.</p>	
17:00	<p>17.00 Say Future: Weekend</p> <p>Concert program. Performance of the artists, contest winners awarding, performances of the participants.</p>
